

NIAGARA COLLEGE

Ontario's construction industry is growing rapidly. The School of Trades at Niagara College is helping meet the provincial demand for highly-skilled tradespeople, and giving our students the practical skills to embark on lucrative, lifelong careers.

In spacious lab facilities at our Welland Campus, students in nearly 20 diploma, certificate and apprenticeship programs are taught by expert faculty. With modern equipment at their fingertips, students gain hands-on, applied learning experiences to build their skills and their confidence. Through co-op opportunities, students make strong connections with industry leaders and gain practical, on-the-job experience for industry and entrepreneurial pursuits. After graduation, NC students are positioned to apply for additional industry-recognized certifications.

Aspiring automotive technicians are learning to problem solve in cutting-edge learning spaces like our Green Automotive Technology Lab where students learn to diagnose hybrid and electric motors and explore the future of alternative fuel technologies, autonomous, self-parking and collision-avoidance technologies.

Skilled craftspeople seeking careers in the growing construction industry can earn training to safely perform carpentry and renovation work, framing, drywall, roofing and more.

Electricians are in high demand, and NC's electrical programs train problem-solvers in a small and supportive class environment with the expertise to install and maintain the electrical systems.

Students with an artistic flair are applying their passion to careers in hairstyling, learning innovative technical skills and styling trends in NC's immersive, educational teaching salon.

Students in our welding programs are learning how to operate precision metal cutting and grinding machines to master a variety of advanced welding techniques.

The mechanically inclined can train to become a millwright to diagnose and repair all sorts of rotating, hydraulic, and pneumatic equipment.

Choose

Career Success

Graduate with skills that are in high demand. Niagara College ranks in the TOP 10* of all Ontario Colleges for graduate employment and leading-edge programs that will prepare you for success.
