

The Edge is a place reserved for those with **confidence**.

It is where

- risk turns into opportunity
- ideas become solutions
- the future distinguishes itself from the past.

The edge can be cutting, leading, competitive and entrepreneurial.

And it can also be yours.

At Northwestern Polytechnic our programming is designed specifically to spark and empower success. Our students have distinctive opportunities to roll up their sleeves, broaden their mindset and make impactful connections.

Things will truly come together, as you set yourself apart.

Define YOUR Edge

NORTHWESTERN POLYTECHNIC

Define Your Edge

Northwestern Polytechnic is committed to sparking and empowering success.

We understand that within us all, there are unique ideas, skills and dreams, simply waiting to be discovered. Through a variety of learning pathways, NWP illuminates and unleashes this power. We are honoured to not only provide the catalyst for inspiration, but also the bedrock for a lifetime of achievement.

At NWP you will have the opportunity to fully explore your entrepreneurial potential. You will roll up your sleeves, broaden your mindset, and make impactful connections. Things will truly come together as you set yourself apart.

Degrees of Success

Beginning in Fall 2023, Northwestern Polytechnic will offer two brand new degrees, in their entirety. Students can choose to pursue a Bachelor of Business Administration through our School of Business or a Bachelor of Computing Science offered by our School of Applied Science and Technology. Both these four-year programs can be completed in the heart of northwestern Alberta with all the benefits of our vibrant, contemporary and well-connected campuses.

Along with these exciting new degree options, NWP continues to offer various collaborative University Transfer programs. Students can start the first year of a number of in-demand degrees with the comforts of home, and then transition to a partner institution to complete their qualification.

Powerful Potential

NWP is home to a variety of Skilled Trades pathways. Our students gain an employment edge with hands-on training, quality instruction and unmatched industry connections. In-demand Apprenticeship programs enable students to earn as they learn by combining classroom instruction and paid workplace experience.

We strive to accelerate productivity and potential. Industry partnerships with global leaders like Caterpillar Inc. and Finning Canada give our graduates highly sought-after skills and a head start into careers maintaining some of the largest machinery on earth. We are also proud to host the only authorized Harley-Davidson® Training Centre in Canada. Whether you choose an immersive apprenticeship or a more condensed certificate program, you'll benefit from NWP's industry links and distinctive career opportunities.

Strengthen Your Knowledge

NWP offers a range of courses with specialized Indigenous content. These classes focus on Indigenous History, Knowledge and Governance, and support reconciliation and enhanced understanding in the community and workplace.

Lifelong Learning

At NWP you can learn a little, or a lot. With hundreds of short-term and part-time Continuing Education courses to explore, professional or personal development is easy. Be it business and industry training, health care and crisis response, general interest, or other topics to fuel success, NWP has plenty of options.

Bridge the Gap

NWP helps students upgrade and complete the courses they need for apprenticeship certificate, diploma and university programming. With equivalency courses and GED testing, students can easily fill in any missing pieces and focus on their next learning milestones.

Scholarships, Bursaries and Awards

Northwestern Polytechnic has a number of easy to access financial supports for our learning community as well as specific assistance for Indigenous students.
