

Canadore College — Trades and Technology at Canadore College

Skilled workers are in high demand locally, provincially and across Canada. Canadore is on the cutting edge of innovation with its superior trades and technology learning facility that has specialized labs fully equipped with industry standard training tools. Many of our highly qualified professors still work in their respective industries and are up-to-date with the current trends and continuously changing technology.

12+ Skills Apprenticeships

FEATURED PROGRAMS

Building Construction Technician – 42 Weeks - Ontario College Diploma – Canadore has one of the largest carpentry labs in Ontario with over 14,000 sq. ft. of training space – large enough to have two full-size houses built within its walls. In this program, gain the hands-on skills needed to work in the growing building construction industry. Learn how to operate the tools and equipment of the trade, lay out and construct wood frame structures, apply interior and exterior finishes and much more.

Motive Power Technician – 40 Weeks - Ontario College Diploma – Learn to operate, diagnose and service all types of vehicles, from standard automobiles to industrial heavy-duty equipment, and train on the latest technology. You will perform actual service procedures on a wide variety of components found in the power train of heavy vehicles, install and set up clutches, and tear down and assess the condition of manual transmissions.

WHY CANADORE?

Over 50,000 sq.ft. of trades and technology lab training space. • Over 80 quality full-time programs. • One of the highest graduation rates in the province and lifelong support for grads
